

CONCEPT PROPOSALS

- 01 Crossing point and main access route to the park
- 02 Existing retaining wall removed. Low, visually permeable fencing provided along boundary with Haybale Street
- 03 Main entrance with framing walls, lighting, signage and bollard to deter vehicles. Hatched pathway indicates phase 1 installation
- 04 2.0m wide central pathway leads to playground and large shelters. Bins, cycle hoops and water bubbler located around entry node
- 05 Large shelters with double picnic settings suitable for family gatherings, with views to playground
- 06 Playground (to be installed as phase 1, prior to surrounding works). Additional benches to be provided in phase 2 works. Tree planting provides shade to northern side
- 07 30m long flying fox with synthetic turf surface and shade trees at northern gathering point
- 08 Phase 2 playspace including soft fall mounds, pirate ship, swings and junior play elements supported by shade sail and a variety of seating options
- 09 Feature climbing equipment - bouldering unit
- 10 38 x 46m amenity space with 2m wide peripheral pathway, benches & shade trees
- 11 Small shelters offer opportunity for shaded seating and meeting places
- 12 2.0m wide peripheral pathway with central linemarking to encourage riders/skaters/runners to stay to one side
- 13 Picnic lawns with feature shade trees
- 14 Fitness pods with formal equipment, attached bench and concrete surfacing
- 15 Eastern entrance to provide easy connection to future school site and eastern land releases. Boardwalk/bridge required across swale
- 16 Planted swale along eastern boundary to redirect stormwater and provide biodiversity
- 17 Area to be maintained as existing until future road works
- 18 5.0-11.0m wide planted buffer zone between future road and park
- 19 3.5 x 30.0m Re-enforced turf Council maintenance vehicle parking. Final alignment to be confirmed
- 20 Existing Council maintenance access from Sixth Avenue to be retained
- 21 North eastern low point with stormwater convergence. Dry creek bed, swale or similar
